TB Evenlode Income, a sub-fund of the TB Evenlode Investment Funds ICVC A Income, ISIN: GB00BD0B7B32

The Authorised Corporate Director of this Fund is: T. Bailey Fund Services Limited.

Objectives and Investment Policy

The Fund aims to achieve long-term total returns, with an emphasis on income.

The Fund will mainly be invested in UK listed shares, with the balance in overseas listed shares and cash.

The Investment Manager aims to invest in a focused portfolio of shares offering a combination of high and growing cash-flows and low business risk in order to deliver both capital growth and income growth for the Fund.

Investors can redeem units on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

For income units, any income received is paid out to you quarterly. For accumulation units, any income received is reflected in the price of units.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

Risk and Reward Profile

The Risk and Reward Indicator below demonstrates in a standard format where the Fund ranks in terms of its potential risk and reward. It is based on historical performance data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking. The higher the rank the greater the potential reward but the greater the risk of losing money.

- The Fund is in the above risk category because it invests in shares.
- As Fund performance history does not go back 5 years (see Past Performance section overleaf) the indicator has been based partly on the performance history of the Evenlode Income Fund.
- The lowest category does not mean a fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- A limited number of investments may be held which has the potential to increase the volatility of performance.
- The movements of exchange rates may lead to further changes in the value of investments and the income from them.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.
