MANAGER COMMENTARY

Equity markets resumed their upward momentum in May, once again driven by the Information Technology sector. Within the comparator benchmark, the MSCI World Index, Communication Services were also strong, driven by Alphabet, and Financials also rose helped by banking and insurance companies. The fund's returns were more muted, with positive returns from many stocks offset by fallers.

Within the fund's portfolio there were strong showings from transportation brokerages CH Robinson and Kuehne + Nagel which posted better than expected first quarter results and are likely to benefit from increased freight costs following post-pandemic lows. Credit referencing agency Experian was also strong after the reporting of its year end results (to the end of March), which showed broad based growth across its business lines. Pharmaceutical firm GSK enjoyed improved sentiment, although this has been tempered since the end of the month by news that an ongoing litigation case in the US is to be heard in court. Software and cloud computing giant Microsoft rose in the generally buoyant mood around IT driven by enthusiasm for all things artificial intelligence. Less positively health care laboratory services provider Sonic Healthcare fell as it issued a profit warning. Despite continued strength in revenue growth it is taking some time to absorb cost increases, which have been elevated as a result of delivering pandemic-era Covid testing and the more general effects of recent inflation. This should correct itself over time as a result of continued growth and some actions around costs. This is one example of a number of companies that are continuing to see some longer-lasting effects of the operating environment during and after the pandemic, which are negative in the near term but in our estimation do not affect the overall long-term health of the franchise. As a result we feel the current valuations on offer are attractive, particularly in the context of a generally high market price level.

Investment Analyst
Robert Strachan is an Investment Analyst on the Evenlode Global Income strategy and joined Evenlode in 2019.

BEN ARMITAGE
Investment Analyst
Ben is an Investment Analyst on the Evenlode Global Income strategy and joined Evenlode in 2021.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG)

We believe that delivering real, durable returns over the long term can be best achieved by integrating environmental, social and governance (ESG) factors into our risk management framework as this ensures that all long-term risks are monitored and managed on an ongoing basis. In addition to reviewing ESG factors when making investment decisions, we engage with portfolio companies on a range of ESG issues (for example greenhouse gas emission reduction). However, please note that the fund does not have a sustainability objective.

SAWAN WADHWA
Head of Stewardship

Integration into the investment process

We recognise that climate change poses significant financial challenges and opportunities, in the short and long term. To preserve and enhance the value of our clients' assets, it is important we assess the climate-related risks and opportunities faced by our investee companies and how they are preparing for a low-carbon economy. We support the Financial Stability Board's Task Force on Climate-Related Financial Disclosures (TCFD) and commend the FCA's integration of these recommendations into its listing rules, and the ESG Sourcebook's reporting requirements for financial services companies. Our TCFD entity and product-level reports will be available shortly.

BETHAN ROSE
Sustainable Investment Analyst

Our ongoing commitment

Signatory of:

Evenlode Investment Management became a signatory to the United Nations Principles for Responsible Investment (UNPRI) in 2018. By becoming signatories, we commit to implementing these principles and incorporating environmental, social and governance factors into our investment process to help enhance returns and better manage risk for our clients.

MSCI Rating

Data as at 31 December 2023. Based on 99.6% of AUM. MSCI ESG Fund ratings are intended to measure the resilience of funds to long-term risks and opportunities arising from environmental, social and governance issues.

Morningstar® Ratings

Morningstar Sustainability Rating™

Ratings as at 31 March 2024. Based on 100.0% of AUM. The Morningstar® Sustainability Rating™ is intended to measure how well the issuing companies of the securities within a fund's portfolio holdings are managing their environmental, social, and governance risks and opportunities relative to the fund's Morningstar Global Category peers.

Ratings as at 31 March 2024. Based on 99.0% of AUM. The Morningstar® Low Carbon Designation™ is intended to allow investors to easily identify low-carbon funds across the global universe. The designation is an indicator that the companies held in a portfolio are in general alignment with the transition to a low-carbon economy.

WHAT ARE THE RISKS?

As a focused equity portfolio of between 30 and 50 investments, the fund can involve higher risk and higher volatility. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. You should therefore regard your investment as long term. Details on the risk factors are included in the fund's prospectus, available on our website.

INVESTOR PROFILE

The Fund may appeal to investors who:

- ✔ Would like the prospect of sustainable real income growth combined with some capital growth over the long term
- ✔ Accept the risk associated with the volatile nature of equity investments
- ✔ Plan to hold their investment for at least 5 years

IMPORTANT INFORMATION

This Factsheet has been produced by Evenlode Investment Management Limited. IFSL Evenlode Global Income is a sub-fund of the IFSL Evenlode Investment Funds ICVC. Full details of the IFSL Evenlode Investment Funds, including risk warnings, are published in the IFSL Evenlode Investment Funds Prospectus and the IFSL Evenlode Investment Funds Key Investor Information Documents (KIIDs) which are available on request and at www.evenlodeinvestment.com. The IFSL Evenlode Investment Funds are subject to normal stock market fluctuations and other risks inherent in such investments. The value of your investment and the income derived from it can go down as well as up, and you may not get back the money you invested, you should therefore regard your investment as long term. As a focused portfolio of between 30 and 50 investments, IFSL Evenlode Global Income carries more risk than a fund spread over a larger number of stocks. The fund has the ability to invest in derivatives for the purposes of EPM, which may restrict gains in a rising market. Investments in overseas equities may be affected by changes in exchange rates, which could cause the value of your investment to increase or diminish. Every effort is taken to ensure the accuracy of the data used in this document but no warranties are given. This factsheet is neither directed to, nor intended for distribution or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. The sale of shares of the fund may be restricted in certain jurisdictions. In particular shares may not be offered or sold, directly or indirectly in the United States or to U.S. Persons, as is more fully described in the Fund's Prospectus. Evenlode Investment Management Limited is authorised and regulated by the Financial Conduct Authority, No. 767844. Investment Fund Services Limited is authorised and regulated by the Financial Conduct Authority, No. 464193.

The MSCI information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for or a component of any financial instruments or products or indices. None of the MSCI information is intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Historical data and analysis should not be taken as an indication or guarantee of any future performance analysis, forecast or prediction. The MSCI information is provided on an "as is" basis and the user of this information assumes the entire risk of any use made of this information.
